

Portfolio Highlights

Stay Nest — Travel Booking Web App

Node.js, Express.js, MongoDB — 2024

- Developed a full-stack travel booking platform allowing users to browse and book travel listings
- Implemented secure user authentication and authorization using session-based login
- Designed RESTful APIs for managing listings, reviews, and user data
- Integrated MongoDB Atlas for scalable cloud database management
- Built dynamic server-side rendered pages using EJS templates and Bootstrap
- Implemented CRUD operations for travel listings and user reviews
- Deployed the application on Render for public access

Stone Paper Scissors Game

HTML, CSS, JavaScript — 2024

- Developed an interactive browser-based game using vanilla JavaScript
- Implemented game logic for player vs computer gameplay
- Designed responsive UI with animations and score tracking
- Handled DOM manipulation and event handling for smooth gameplay
- Improved user engagement through dynamic feedback and visual effects

To-Do List Application

HTML, CSS, JavaScript — 2024

- Built a task management application allowing users to add, delete, and complete tasks
- Implemented local storage to save tasks persistently in the browser
- Designed responsive UI using modern CSS layout techniques
- Added real-time task updates and dynamic DOM rendering
- Deployed the project using GitHub Pages

Design Skills

C++, JavaScript, PHP, Data Structures & Algorithms, Object-Oriented Programming (OOP), HTML5, CSS3, JavaScript (ES6+), React.js, React Native, Redux, Tailwind CSS, Responsive Design, Node.js, Express.js, REST APIs, Authentication & Authorization, Session Management, MongoDB, MySQL, MongoDB Atlas, Git, GitHub, Render, VS Code, Postman, NPM, API Integration, Debugging, Agile Development, Problem Solving

Experience

Final Year Undergraduate

Software Engineering

Delhi, India — 2024

- Designed and developed multiple full-stack web applications using modern JavaScript technologies
 - Implemented RESTful APIs and backend services using Node.js and Express.js
 - Built responsive user interfaces using HTML, CSS, and JavaScript frameworks
 - Integrated MongoDB databases for efficient data storage and management
 - Followed Agile development practices including version control using Git and GitHub
 - Debugged and optimized application performance for better user experience
 - Collaborated with peers to design scalable and maintainable application architectures
-
